Dr. Anthony Cacioppo
Chief Scientist
FTD/CCN
Wright-Patterson Air Force
Base, Ohio 45433-6508

Dear Dr. Cacioppo:

On behalf of the staff and students, I want to express our appreciation for the two excellent speakers your suggested for our first Seminar on Science and Technology Forecasting. Mr. Steve Williams, Chief of the Future Systems Division, and Mr. Phillip Davis, Chief of the Aerospace Systems Branch, did a superb job in explaining FTD methods in applying forecasting techniques to Soviet strategic weapons systems. Mr. Davis also provided us two-volumes on Soviet Technological Forecasting, which was very useful for the Seminar.

I appreciate your willingness to support our training program and hope we can call upon FTD in the future for its expertise.

Sincerely

Director
of
Training and Education
